

What is the Value of Being First?

**Perspectives from the California and Sweden Experiences
Climate Policy Forum**

May 7, 2013, 8:30 a.m.-3:30 p.m.

Hyatt Regency San Francisco, Pacific Concourse, Rooms E & F
5 Embarcadero Center, San Francisco, CA 94111

California and Sweden are in a very small group of front runner countries and states on issues of climate policy. As such, Resources for the Future, the Swedish Mistra Indigo program, and the ClimateWorks Foundation are pleased to announce a special conference that aims to deconstruct the California and Swedish experiences in forging new ground toward climate change mitigation and state and national climate policy decisions.

Featuring leaders from the public, private, NGO, and research communities, this unique and timely program will address pathways for climate progress in the current political landscape, issues of industry and state competitiveness, and opportunities for climate gains through action in the transportation arena.

We hope you can join us for what promises to be an interesting and informative discussion of climate policy at the state and national levels.

To RSVP for this event, please contact Mike Viola by Tuesday, April 30th:
